	2,022	1,922						
	89	86						
Cost of drilling and equipping wells	\$1,000							
Wells drilled and completed on contract for others:								
Footage of wells drilled on contract ft								
Costs borne by drilling contracts in drilling and equipping wells \$1,000								
Horsepower rating of power equipment (prime movers Prime movers 1,000 hp)								
Horsepower rating of electric motors driven by energy								

Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies.

(Z) Less than one-half of the unit of measure specified.
For wells that produced both oil and gas, respondents were requested to classify the wells according to the more valuable total product: classifying "distillate" wells as oil wells if the value of all liquids produced was greater than the value of all gas produced, otherwise classifying them as gas wells.

Includes the cost of gas purchased for gas lift and repressuring. See table 7A.

Not shown since the cost of supplies, purchased fuel and electric energy, contract work, and purchased machinery installed exceeded capital expenditures.

(X) Not applicable.
